PROFESSIONAL SUMMARY

Front-End Web Developer with hands-on experience building responsive, accessible, and user-centered websites using HTML, CSS, and JavaScript. Currently sharpening my JavaScript skills and focused on writing clean, maintainable code that enhances user experience. Looking to contribute to a team that values thoughtful design, collaboration, and practical problem-solving.

EXPERIENCE

Front-End Development Trainee, Dot Campus Africa, Nigeria Oct 2024 - Apr 2025

- Completed a 6-month self-paced training program focused on front-end development using HTML, CSS, and JavaScript.
- Built responsive, accessible, and user-centered websites through real-world project challenges.
- Practiced version control and deployment using Git, GitHub, and Vercel, ensuring code maintainability and clean workflows.

TECHNICAL SKILLS

Front-End Development: HTML, CSS, JavaScript

Version Control & Deployment: Git, GitHub, Vercel

Debugging and Testing Tools: Chrome DevTools

PROJECTS

HelioCore

- Designed and built a responsive concept website for a fictional solar brand using HTML, CSS, and JavaScript. Applied clear visual hierarchy and smooth section transitions to showcase services, establish business credibility, and improve user engagement.

Live Demo: [HelioCore](#)

DibaGlow

- Designed and built a modern, responsive concept website for a fictional medical spa using HTML, CSS, and JavaScript. Combined calming visuals with intuitive navigation to create a serene, user-friendly experience.
